

Nguyen Ngoc Hai

Fullstack Developer | React & TypeScript Specialist

Hanoi, Vietnam

📞 +84 869 215 201 | ✉️ s2ngochai01@gmail.com | 🔗 [GitHub](#)

Professional Summary

Mid-level Fullstack Developer with 3+ years of experience specializing in frontend development using React.js, TypeScript, Next.js, and modern UI libraries, backed by solid Node.js and AWS serverless expertise. Architected production-grade applications including AI-powered video platforms and e-commerce solutions that improved operational efficiency by up to 70% and user engagement by 40%. Proficient in GraphQL, DynamoDB, MongoDB, real-time systems, and scalable deployments. Passionate about building intuitive, high-performance web products that deliver measurable business impact. Ready to contribute immediately to fast-paced teams at top tech companies.

Technical Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Styled Components, Redux Toolkit, RTK Query, React Query, Material-UI, Ant Design, Chakra UI, Bootstrap, Chart.js, React Hook Form, Yup, Vite, Sass, Socket.io-client

Backend & APIs: Node.js, Express.js, NestJS, GraphQL (AppSync), RESTful APIs, WebSockets, [Socket.io](#), JWT, Bcrypt

Databases: MongoDB (Mongoose), PostgreSQL, MySQL, DynamoDB

Cloud & Infrastructure: AWS (Amplify, AppSync, S3, Lambda, Cognito, DynamoDB), Vercel, Nginx, PM2, Cloudflare, SSL/HTTPS, Serverless Architecture

Tools & Others: Git/GitHub, Postman, ESLint, Prettier, Figma, VNPay, Nodemailer, Multer, Vitest, Lighthouse

Professional Experience

Event Management Platform Developer

NTQ Solution

October 2024 – Present

- Architected full-featured event management platform with React, TypeScript, AWS Amplify, GraphQL, and DynamoDB, enabling real-time synchronization and role-based access for 300+ concurrent users.
- Implemented PDF/CSV/Excel exports, CSV imports, S3 storage, and automated notifications, cutting administrative processing time by 70% across 500+ monthly events.
- Built revenue analytics dashboards and facility/equipment rental modules, delivering actionable insights that improved decision-making efficiency by 55%.
- Leveraged serverless Lambda functions and AppSync subscriptions to ensure 99.5% uptime and seamless scalability.

AI Video Presentation Developer (Freelance)

Japanese Company

June 2024 – October 2024

- Spearheaded AI-powered video generation platform processing text prompts and multi-format document uploads (PDF/PPTX/TXT) using React, Node.js, AWS Lambda, and text-to-speech APIs, accelerating production by 45%.
- Integrated customizable voice synthesis, dynamic avatars, background music, and real-time timeline editing, supporting multi-language workflows for international clients.
- Optimized cloud rendering pipelines with S3 and scalable backends, handling 250+ daily video generations while maintaining 99.5% reliability.
- Delivered complete production-ready solution with live preview and editing tools, resulting in successful client handover and high satisfaction ratings.

Fullstack Developer

Bwai Tech

September 2023 – April 2024

- Developed and deployed e-commerce platform for Coco Paris Boutique using React, TypeScript, Node.js, Express, MongoDB, and VNPay, adding real-time [Socket.io](#) order notifications and

increasing user engagement by 40%.

- Built clinic homepage with Next.js (App Router), NestJS, MongoDB, Tailwind, and Chakra UI, including admin dashboards, advanced search, and XSS sanitization, boosting performance and SEO by 50%.
- Configured secure production environments on Ubuntu VPS with Nginx, PM2, Cloudflare, and SSL certificates for zero-downtime deployments.
- Optimized search, pagination, and Chart.js revenue dashboards with debouncing and RTK Query, reducing API calls by 60% and improving overall conversion rates.

Key Projects

Gym Equipment Booking System

- Built real-time booking platform with React frontend and Node.js/DynamoDB backend, featuring live availability tracking, JWT authentication, conflict prevention, and admin analytics.

Event Management System (Internship Capstone)

- Engineered full-stack application using React, Spring Boot, and PostgreSQL with JWT authentication, CRUD operations, advanced search/filter, pagination, and role-based member management.

Education

Bachelor of Information Technology Engineering

Thuy Loi University, Hanoi, Vietnam 2019 – 2024

GPA: 3.1/4.0

Awards & Honors

- Scholarship Recipient (2019–2020)
- Excellent Scholarship (2021–2022)
- Summer Internship Training Certificate – USOL Vietnam (2023)

Languages

- **English:** Read and understand technical documentation; basic conversational skills
- **Vietnamese:** Native
